SECRET

with 6 to 10 amphibious vehicles and assault boats was also stationed at the field. The headquarters of a border guard unit proviously quartered at the airfield moved to Kloetze. The barracks installations on Bismarckstrasse in Cardelegen quartered an engineer battalion, equipped with armored scout cars, and a signal unit, which set up several radar sets. Three-section pontoons and a mobile crane were observed with the ergineer unit. (h)

Comments.

- The area covered by the Cardelegen border quard headquarters was reorganized in May. The border quard headquarters in Kloetze and the komendature in Calbailde were nowly established so that border guard headquarters in existence in this area included: those in Oschersleben for the Stapelburg district extending from the Harz I'ts as far as the autobahn near Helmstedt; those in Kloetze for the district between the autobahn near Helmstodt and Manel; and those in Salzwedel for the Cistrict between Kanel and the albe Miver. In June, the personnel of the Cardelegen border guard headquarters was exchanged with the personnel of the Indexignlust border guard headquarters. The same measure was effected between the Stendal and Perleberg border guard headquarters.
- The NGB headquarters in Stendal was located in a restricted area. Its supply officer was 'ajor lakarev (fmu). The Tauentzien waserne quartered the tank and the hindenburg Kaserne quartered infantry unit regiment[25X1 The Albrecht Per Baer Kaserne quartered mixed units whose supply officer was ajor Parin (fnu). A rotor pool was established at the stockyard Captain Frolenko (fnu) was observed there. A military bakery, hospital and laundry were located 25X1 near the Stendal railroad station. (5)
- These cata support the previously voiced assumption that the camp in Lorr quarters units of the Third Shock Army including the 19th Cds Feez Div and the 136th Cds Hy Tank SP Regt from Burg, and that the camp in Planken quarters the 7th 6ds Tank Div, during the summer months. Colonel Toshko (fnu) and Colonel Popov (fnu) 25X1 25X1 vere reported [in Movember 1951 as having the same assignments at the target range headquarters, The newly constructed barracks installations, south of Steats were occupied in October 1951. Since that date the installations had quartered, in rotation, 25X1 all elements of the 16th Gds Tank OF Regt of the 207th Ltz Rifle Div. Karev (fmu) and the officers in Planken were reported Covember 1951.
 - The Jaevenitz Camp between Nottendorf and Jaevenitz, south of the Stendal-Cardelegen reilroad line, has been under construction since the spring of 1952. According to concordant information, the came has been occupied in rotation by units of the 207th Fitz Rifle Div from Stendal and Cardelegen since June for summer training. In mid-November 1951,[

25X1 had furnished essentially the ⊶rnation 25X1 on the occupation of the Cardelegen military post.

> battalion cach was the two barracks installations. 25X1 therefore, certain that the 890th lagr Pa of the LXXIX ltz hifle Corps, 7 is quartered in the Amonteschule on Dismarckstrause; and possibly ngineer lattalion in the barracks installation of the rirfield 25X1 the Eq of corder Sward Unit 25X1 25X1 installation. The deduction that of the headquarters of this retiment has possibly been transferred to the Bloetze area is supported by information furnished mid-lay 1952, according to which vehicles of this regiment hauled sections of profabricated houses from ble Gercelegen realroad station to Michitan near Kloetze. There is a possibility that the headquarters and those elements of this regiment, which were not committed
